### **Updates after commencement of project:**

On 24 October 2017 Andrew Hutton advised the Director Secretariat that he had become aware of a technical report prepared for the project by the Sydney office of SLR consulting. Mr Hutton works for SLR consulting out of their Newcastle office and was not involved in the work. Whilst this does not represent a direct conflict of interest it may be perceived to be a conflict. Therefore, Mr Hutton requested to be removed from the panel, his request was accepted by the Chairperson. On 26 October, he formally advised the Commission he would not accept his nomination.

Subsequently on 26 October 2017, Peter Williams was formally nominated to the commission panel for this project. Peter Williams has advised that he has no actual, potential or perceived conflict in relation to the project.

This register is made upon the nomination of Commissioners to the determination or review panel. It may be updated if actual, potential or perceived conflicts arise during the determination or review process.

For further information about conflicts, please consult the Planning Assessment Commission Policy on Personal Interests of Members, which is available to download on the Commission website:
